CASE STUDY: CHENNAI - LIFE BY THE SEA

Chennai is a **coastal city** in India. It is located near the **Bay of Bengal**. The sea is an important part of life in Chennai.

Many people visit **Marina Beach** to play, relax and spend time with their families. Some people work near the sea. **Fishermen use boats to catch fish**, which can be sold in markets or used as food.

Chennai also has a **port**. Ships use the sea to carry people and goods to different places. Many activities in Chennai are connected to the sea because the city is located near the coast.

BE A PLACE DETECTIVE!

1.  What natural feature influences life in Chennai?
-

2. 🎣 Why do fishermen use boats?

3. 🌴 How does the sea influence people's activities at the beach?

4. 🚢 Why is the sea important for Chennai's port?

5. 🔍 Think like a detective!

What might change if Chennai was far away from the sea? Why?

📖 CASE STUDY: AMAZON RAINFOREST - WHEN PEOPLE CUT TREES 🌳🌍

The **Amazon Rainforest** is a large rainforest in South America. It is home to many trees, plants and animals.

People sometimes **cut down trees** to make space for farms, roads and buildings. When many trees are cut, the forest becomes smaller.

Animals such as monkeys, birds and insects may lose their **homes and food** when trees are removed. The natural environment of the rainforest can change because of people's actions.

People can help protect the rainforest by **planting trees and taking care of forests**.

BE A FOREST DETECTIVE!

1. 🌳 What human action is changing the Amazon Rainforest?

2. 🤔 Why do people cut down trees in the rainforest?

3. 🐒 How does cutting trees affect animals?

4. 🔗 What causes the forest area to become smaller?

5. 🌱 Think like a detective!
